

## STANDING STONE

By HERMANN J. WIEMER VINEYARD

**Welcome to Standing Stone! We are so glad you're here.**

Whether you're spending time in our tasting room, relaxing on the deck, or simply enjoying a glass while taking in the view, our team is here to make your visit easy, enjoyable, and delicious.

Standing Stone stretches across 46 acres on the eastern slopes of Seneca Lake, prime vineyard land in the Finger Lakes. Our site is home to many different vinifera, including Riesling and Chardonnay vines planted over 50 years ago (true originals), plus a rare Georgian variety called Saperavi, that makes bold and distinctive wines.

In 2017, our friends at **Hermann J. Wiemer Vineyard** took over this historic site to carry its story forward. With a commitment to sustainability, we plant and maintain cover crops to nurture healthy soils and vibrant ecosystems, farm without herbicides, and rely on wild yeast to ferment all of our wines. We see ourselves as stewards of the land and vineyards, working with nature to preserve them for generations to come.

### OUR MISSION

To continue to guide this land on its journey, to honor its history, and to craft wines that are thoughtful, expressive, and adventurous.
